

Dear Sirs, Please, please consider the problems the BPL will cause to the HF Bands in the Amateur Service.

From what I've read about it, BPL will pretty much kill the usability of HF for most operators. This is a serious threat for us and I hope you folks at the FCC will give it the full consideration it certainly deserves.
Thank you for your time.

Best regards, Aubrey Haddock K4ATH P.O. Box 635 New Bern, NC 28563
